EMC*
design and
certification

Electromagnetic compatibility (EMC) means that a device is compatible with (i.e., no interference is caused by) its electromagnetic (EM) environment and it does not emit levels of EM energy that cause electromagnetic interference (EMI) in other devices in the vicinity.

The Quietest Motor in the world

Less than
35 dB

For your comfortable life,
Ti-8040 System runs with less
than **35 dB** with a new motor,
belt and special silent rollers.

Moving with “Elegance”

Soft start ● ● ● > Normal speed —————> Soft stop >>> |

Smart System Control
speed and stop position
automatically.

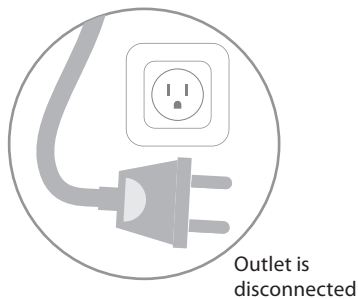

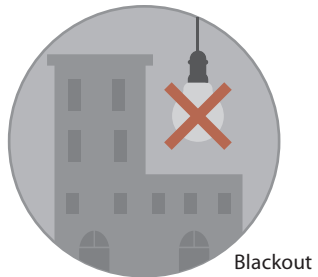

With its “Slow start & Slow stop” design and automatic limit setting, curtains are moved with elegance.

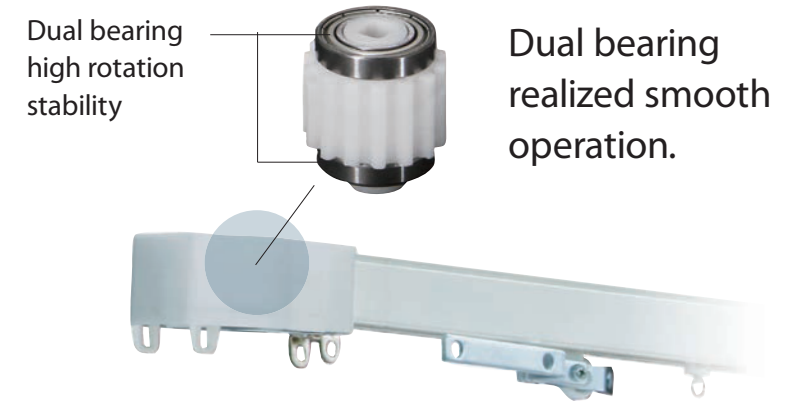

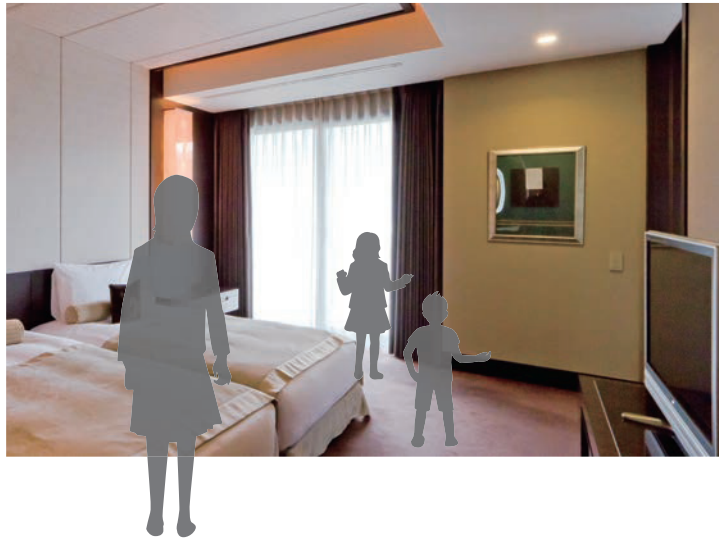

Universal Design

Safety—Hand-draw System for Hotel

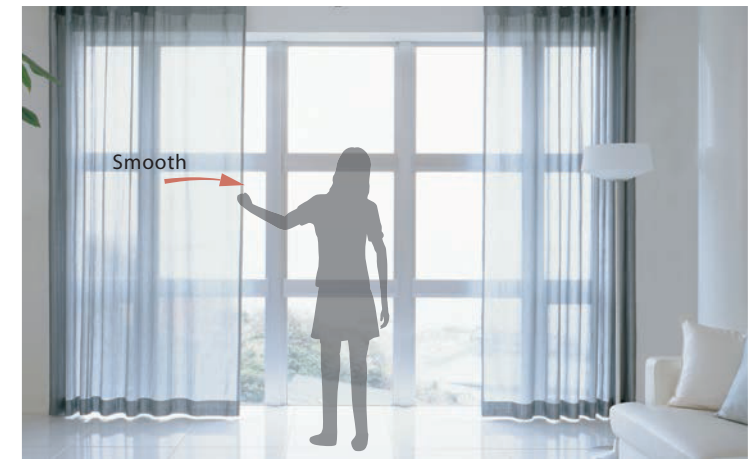

With manual operation the curtain can be pulled by hand as smoothly as a hand-draw manual track with no damage to system.

Anyone can operate the opening and closing by hand, both adults and children

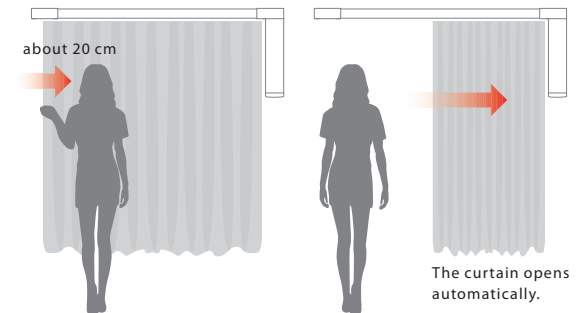

Ti-8040 smooth hand operation does not damage the curtain

Touch motion system for your home

The "Touch Motion" system allows opening / closing of curtains without using any switch. The "Touch Motion" can be switched off if required.

You can not find the remote-control
